Overview

Headset

- Call button
- Volume button
- Indicator light (LED)
- Power button
- Snap-fit magnetic charge connection
- Mute button
- Voice button
- Play/Pause button

Bluetooth USB Adapter

- Indicator light (LED)
Call Controls

Answer a call
Choose:
• Tap the Call button
• Put headset on (Smart Sensor)
• Say “answer” when prompted (mobile phone only)

Answer a second call
Choose:
• Tap the Call button to end current call, then tap the Call button again to answer the second call.
• Or, for mobile calls, tap the Call button once to end current call, then say “answer” when prompted to answer the second call.

End a call
Tap the Call button to end current call.

Reject a call
Choose:
• Press Call button for 2 seconds
• Say “ignore” when prompted (mobile phone only)

Call back last call
Double-tap the Call button to call back the last active call regardless of whether it was an inbound or an outbound call.

NOTE If no calls have been made or received in the current connected session this feature will not function. Double-tapping the Call button will result in a single low tone for each button press; however will not connect you to the last active call from the previous session.

Voice dial (mobile phone)
Press the Call button for 2 seconds, this will invoke the mobile phone’s voice dial command feature.

Activate Siri (iPhone only)
Press the Call button for 2 seconds, this will engage Siri® on your iPhone.
**Caller Announcement (mobile phone only)**

When wearing your headset, you will hear the name of a contact calling you so you can decide whether to answer or ignore the call without having to check the phone screen.

An incoming caller name is announced:

- if your phone supports Phone Book Access Profile (PBAP)
- if you granted access to your contacts during pairing process (for many mobile phone's this is preset out-of-the box and may not be necessary)
- if the caller is stored in the phone's contacts list

An incoming caller name is not announced: if the caller is unknown, unlisted, or blocked

---

**Mute**

You can mute the microphone during a conversation.

1. **Mute on**: During a call, tap the Mute button, you will hear the “mute on” voice prompt. The mute reminder is repeated every 15 minutes alternating between the voice prompt and a tone.

2. **Mute off**: During a call, tap the Mute button, you will hear “mute off”.

**NOTE** The mute off voice prompt and mute reminder timing can be customized in MyHeadset Updater. plantronics.com/myheadset

---

**Adjust the volume**

Toggle the Volume button up (+) or down (−) during a call or while streaming audio.

While not on a call or streaming audio you can toggle the Volume button to adjust the volume level for Caller Announce and other voice prompts.

---

**Use Smart Sensors**

Smart Sensors™ in this headset recognize if the headset is being worn and can automatically perform time-saving functions.

**Putting on your headset will**: 

- Answer an incoming call
- Transfer an active call from your phone
- Resume streaming audio

**Taking off your headset will**: 

- Transfer an active call to your phone handset
- Pause streaming audio
- Lock the Call button to avoid accidental calls

---

**Play or pause streaming audio**

A 2-second press of the Play/Pause button will either pause or resume playback of streaming audio.

**NOTE** You must pause your streaming audio before you:

- use your headset’s voice commands
- initiate an outbound call with your headset (call back or voice dial)

**NOTE** If you power off the headset or go out of phone range while streaming audio, your headset will not play/pause the stream upon reconnecting until you manually resume streaming with your phone.
Pair your headset to your phone or another device, such as a tablet.

1. Switch on your headset then choose:
   - Tap the Voice button 🎤 and say "Pair mode," or
   - Press and hold the Call button ☎️ until you hear “Pairing”

2. While the headset LEDs are flashing red and blue, activate Bluetooth® on your phone and set it to search for new devices.

3. Select "PLT_Legend."

4. If your phone asks for a passcode, enter four zeros (0000) for the passcode or accept the connection.

5. Once successfully paired, LEDs stop flashing red and blue and you hear “pairing successful.”

   **NOTE** To enable caller name announcement, allow access to your contacts if your phone prompts you.
Features

Listen to Audio via A2DP
Your Voyager Legend headset can play media files (music, podcasts, navigation, etc.) from any A2DP (Advanced Audio Distribution Profile for Bluetooth)-enabled mobile device.

Transmission Range
Your Voyager Legend Bluetooth headset has a 10 meter effective range. Voice prompts from your headset will alert you if you lose connection with your mobile phone or PC Bluetooth Adapter.

Simultaneous Call Handling Behavior (PC Mobile)
You can be on a call using a computer softphone application and receive a mobile phone call. The ringtone for the mobile phone call is heard in the headset. Tapping the call button on the headset will end the computer softphone call. Tapping the call button again will answer the mobile phone call.

**NOTE** Answering the call on your mobile phone sends the audio to the mobile phone and leaves the computer softphone call active on the headset.

You can be on a mobile phone and receive a call on your computer softphone. The ringtone for the computer softphone call is heard in headset during the call.

Tapping the call button on the headset ends the mobile phone call. Tapping the call button again answers the computer softphone call.

If you receive a computer softphone call and mobile call at the same time, tapping the call button will pick up the call that came in first.

Voice alerts
Your headset tells you about status changes with a U.S. English accent. You can change the voice alert language by visiting plantronics.com/myheadset and downloading the MyHeadset™ Updater tool. The available languages are Cantonese, English with a U.K. accent, Danish, French, German, Italian, Japanese, Korean, Mandarin, Norwegian, Russian, Spanish and Swedish.

Voice alerts list
- “Power on/off”
- “Answering call”
- “Talk-time (x) hours”
- “Battery low”
- “Recharge headset”
- “Lost connection”
- “PC connected”/”PC disconnected”
- “Phone 1 connected/Phone 2 connected”
- “Pairing”
- “Pairing successful”
- “Pairing incomplete, restart headset”
- “Mute on/off”
- “Volume maximum/minimum”
- “Voice recognition on/off”
- “Calling back last number”
- “You can say”
Tap the Voice button 🎤, wait for command request, then say a command. For example, “What can I say?” tells you the full list of available commands. You can change the voice command language by visiting plantronics.com/myheadset and downloading the MyHeadset™ Updater tool. The available languages are English with a U.S. accent, English with a U.K. accent, French, German, Italian, Japanese, Korean, Mandarin, Russian, Spanish and Swedish. Use U.K. English for Cantonese, Danish and Norwegian as there is no voice recognition support for these three languages.

**Voice commands list**

- “Am I connected?”
- “Answer”
- “Call Vocalyst”
- “Cancel”
- “Check battery”
- “Ignore”
- “Pair mode”
- “Call back”
- “What can I say”

**NOTE** The voice-dial feature on your phone is initiated by pressing the Call button 📞 for 2 seconds. The voice-dial feature is not a headset voice command.

**Disable the answer/ignore voice commands**

To disable the “answer/ignore” voice commands:

1. Switch on the headset.
2. Press and hold the Voice button until you hear a double tone.
3. Repeat to reactivate the voice answer commands.
Fit

Change the eartip

1. Push in eartip and rotate to the left to unlock it.

2. Align new eartip into slot.

3. Push and rotate it to the right to lock it into place.

Wear on the left or right

To wear the headset on your other ear, rotate the boom upwards then twist it around so the eartip is on the other side before lowering the boom.
There are three ways to charge your headset. Your new headset has enough power to pair and make a few calls before charging is needed, though you may charge it at any time.

**NOTE** Always charge at near room temperatures; never charge battery at temperatures below 0°C (32°F) or above 40°C (104°F).

1. Align snap-fit magnetic areas of headset and charging device.
2. Attach charging device to USB wall charger or laptop. LEDs turn off once fully charged. A full charge will take 90 minutes. You may leave your headset connected to the charger once charging is complete without harming the battery.

---

**USB cable to PC or USB wall charger**

Charge the case for 90 minutes before docking your headset. Once the case if fully charged, it can recharge your headset twice while on the go before needing connection to a charge cable providing up to 14 hours of talk time.
Understand the charge case lights
The indicator lights flash battery status for the charging case and the headset.
- 3 red flashes = battery critical
- 2 red flashes = battery low
- 2 blue flashes = battery medium
- 3 blue flashes = battery full

The case indicator lights flash when:
- the headset is docked/undocked
- the case is connected/disconnected
- the battery status button is pressed

Test battery status
Press the battery status button to see the battery status of the charging case or the headset.
### Low Battery Warnings

<table>
<thead>
<tr>
<th>Battery Level</th>
<th>Tone</th>
<th>Voice Prompt</th>
</tr>
</thead>
<tbody>
<tr>
<td>30 minutes of talk time remaining (this alert only occurs during an active call)</td>
<td>Double high tone every 15 minutes</td>
<td>“Battery Low” repeats every 30 minutes</td>
</tr>
<tr>
<td>10 minutes of talk time remaining</td>
<td>Triple high tone every 30 seconds</td>
<td>“Recharge Headset” every 3 minutes</td>
</tr>
</tbody>

Pairing your Bluetooth USB Adapter

Initial Pairing

Your Bluetooth USB adapter comes pre-paired to your Voyager Legend headset.

Re-Pair USB Adapter to headset

In the event that your headset and Bluetooth USB adapter are not paired or become unpaired do the following:

1. Remove the Bluetooth USB adapter.

2. Power on your headset then choose:
   - Tap the Voice button and say "Pair Mode."
   - Press and hold the Call button until you hear "Pairing."

3. Insert Bluetooth USB adapter directly into your PC USB port. Once successfully paired, LEDs stop flashing red and blue and you hear "PC connected."

4. Headset will exit pairing mode.

Auto Connect

Your headset will automatically connect to paired devices such as your mobile phone and Bluetooth USB Adapter when the headset is on and within range. Voice prompts will also prompt you when you are out of range of devices.
Connect PC and Call

1. Power headset on.
2. Insert Bluetooth USB adapter directly into your PC USB port. The LED will flash and then turn solid blue to indicate the headset is connected to the USB adapter. The LED remains solid blue when not on an active call.
   **NOTE** Insert your Bluetooth USB Adapter directly to your laptop or PC instead of connecting to a USB port on the docking station or hub.

3. Load Plantronics Spokes software by visiting plantronics.com/software and click on the “Download” button.
   **NOTE** Spokes software allows you to customize your headset’s behavior through advanced settings and options.

4. Check your Audio Settings.
   Confirm the speaker and microphone settings for your PC softphone are set to Plantronics BT300.
   **PC Audio Setup for Windows 7 and Windows 8**
   Go to Control Panel -> Sound -> Playback tab, and set the Plantronics BT300 device as the Default Communications Device. Next go to the Recording tab and set Plantronics BT300 as the Default Recording Device. If you plan to listen to streaming audio set the Plantronics BT300 device as the Default Audio Device as well. In the Playback tab, this is indicated by the green checkmark.
   **PC Audio Setup for Windows XP**
   Go to Control Panel -> Sounds and Audio Devices, and in the Audio tab set the Plantronics BT300 as the default device for the Sound playback and Sound recording sections.

5. Place a call from your computer softphone. During an active call, the Bluetooth USB adapter will flash blue.

---

Customize your headset

Your headset understands and speaks in English. You can change the language and other settings online.

MyHeadset™ Updater (plantronics.com/myheadset) tool enables you to:

• Receive firmware updates

• Change language for voice alerts and commands (English with a U.K. accent, English with a U.S. accent, French, and German, Spanish). Voice alerts are also available in Cantonese and Mandarin.)

• Change regional phone number for Vocalyst service

• Turn voice commands on/off

• Turn Smart Sensors™ on/off

• Turn high quality audio (A2DP) streaming on/off

• Turn "mute off" voice alert on/off

NOTE Visit MyHeadset Updater at plantronics.com/myheadset to download the software tool needed to customize your headset
