

POWERING SUPERIOR MICROSOFT TEAMS EXPERIENCES

HEADSET AND SPEAKERPHONE SOLUTIONS FOR MICROSOFT TEAMS

Device choices can make or break the success of your Microsoft Teams project. Companies who provide users with devices that properly align with their employees' work styles are 62% more likely to see high or increased adoption.¹

Poly's Skype for Business certified headsets and speakerphones work with Microsoft Teams with call control functionalities within your Teams call and meetings. Functions such as mute, unmute, answer, or volume up and down are just as intuitive as you will expect by using the physical call control button on the headset or speakerphone.

From the train to the open office, and every space in between, Poly helps you hear what matters and make your Microsoft Teams experiences better than ever.

COMPARED TO THE LEADING COMPETITOR, USERS ARE²
