

CA40

Break down the boundaries of your job – use the new CA40 DECT™ adapter from Plantronics to take the extra step.

For a headset solution that brings an extra dimension to your workspace, look no further than the CA40 DECT adapter. CA40 allows you to walk and talk in comfort, with a range of 150 metres.* So – whether you want to pace up and down during that important call, or collect a vital fax, the freedom to do so is yours!

CA40 has many user-friendly features – auto-configuration to ensure the product adapts itself specifically to your phone, a discreet and lightweight remote pack, a 7-position tone control for easy listening and a choice of power modes to make the product uniquely adaptable to your working environment.

CA40 can be used with all current Plantronics headsets as well as a unique version of the DuoSet™ headset featuring an in-use indicator on the boom – what better way to let colleagues know you're talking on the phone?

So, to increase your workspace and ensure optimum comfort and productivity while you talk, use the most intuitive DECT headset system – CA40 from Plantronics.
