

Plantronics Discovery™ 645 Bluetooth® Headset with DSP

Enjoy simplified mobility with the ultimate DSP Bluetooth headset

The Plantronics Discovery 645 Bluetooth headset with DSP lets you stay connected and be heard like never before. Combining cutting-edge technology and sleek design, the Discovery 645 wireless headset is ultra-light and comfortable, delivers crystal clear communication, and includes an innovative charging system. The Plantronics Discovery 645 sets the standard in style and convenience. Wherever your conversations take you, take the Discovery 645.

- DSP (digital signal processing) actively reduces transmitted background noise for optimal sound quality
- Less to carry—use your existing mobile phone charger¹ for up to 3 hours of talk time between charges
- A unique, pen-sized carrying case stores a AAA battery that charges the headset between calls—a Plantronics industry first—for up to 9 hours of talk time
- Long-wearing comfort and ultra-light—weighs only 1/3 ounce
- Personalized fit with three sizes of soft gel ear tips
- Optional 'ear stabilizer' fits over the ear
- Sleek, lightweight wireless design with chrome carrying case
- Supports last number redial, and voice-activated dialing² for easy mobile use
- Pocket case vibrates with incoming calls
- Works with multiple Bluetooth devices—phones, PDAs or laptops
- Freedom to roam up to 33 feet from your Bluetooth device

Sound Innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man, one giant leap for mankind." Today, we're the headset of choice in mission-critical applications such as air traffic control and 911 dispatch. This history of proven sound innovation is the basis for every product we build—whether it's for work, for home or on the go.
