

GAMECOM 318LX

SWIFT IN-GAME AUDIO AND CHAT MIXING

Your most effective weapons in matchplay are teamwork and awareness. The Plantronics GameCom 318LX gaming headset and advanced audio adapter give you the advantage of dual-wheel analog precision for fast tuning of game and chat mix.

FEATURES

- GameCom 318 stereo headset delivers premium audio and voice clarity
- Lightweight design for extended play sessions
- Flip-up mic boom stows away for single-player sessions
- Dual analog wheels deliver fast, precise fingertip control over game and chat audio
- Visual min/max audio settings mean no distractions or pauses for on-screen menus
- Push-button microphone mute with audio alerts for on/off status
- Three selectable EQs boost bass, mid-range and high frequencies
- Sidetone mic monitor lets you hear the quality of your outgoing chat
