

### 3-in-1 Plug-and-Talk Convenience for Internet, cordless and mobile calls

Multi-task away while sounding professional at home or on the go with a M214i or MX500i Headset from Plantronics. These versatile headsets come with a standard 2.5mm headset jack to plug into a cordless or mobile phone, and a USB adapter for use with a PC. Let callers hear you, not background noise, with crystal clear sound and mute control option. Enjoy hands-free mobility, all-day comfort and the convenience of a single-ear design for easy side conversations.

**Works with Google, Skype, Yahoo! and most Internet Calling Services**

Sound Innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man, one giant leap for mankind." Today, we're the headset of choice in mission-critical applications such as air traffic control and 911 dispatch. This history of proven sound innovation is the basis for every product we build—whether it's for work, for home or on the go.
