

RIG FLEX LX SPECIAL EDITION

DESIGNED FOR COMPETITIVE FPS TEAM PLAYERS

Competitive multi-player matches demand absolute audio clarity and precise control over your soundscape. The Plantronics RIG Flex LX LX Special Edition gaming headset and advanced audio adapter deliver fast, analog control over game audio and team comms.

FEATURES

- RIG Flex gaming headset with 40mm drivers and noise-canceling mic delivers superior audio
- Cushioned, lightweight headset with boom-mounted mic offers hours of comfortable play
- Dual analog control-wheels deliver fast, precise fingertip control over game and chat audio
- Choose game and chat balance or independent volume modes to fit your style of play
- Visual min/max audio settings mean no distractions or pauses for on-screen menus
- Three selectable EQs boost bass, mid-range and high frequencies
- Push-button microphone mute with audio alerts for on/off status
- Sidetone mic monitor lets you hear the quality of your outgoing chat
- Swappable inline microphone with call answer/end and mute for smartphones and tablets
