

7.1

SURROUND SOUND
DOLBY® HEADPHONE
TECHNOLOGY FOR PC

Amp + audio mixer

Hear and Feel the Game Around You

Hear It. Feel It. Win It. Delivering signature Plantronics performance audio drenched in the Dolby 7.1 surround sound experience, you'll feel the action around you. Pick one of the three EQ presets to emphasize the audio that matches your game and use the amp to connect and mix in music or side chat from your smartphone or tablet. With one touch, switch your mic feed to move between game commands and mobile calls, confident everyone will clearly hear you.

FEATURES

- USB gaming headset with 40 mm drivers and bass tube technology delivers performance audio drenched in the downloadable Dolby 7.1 surround sound experience for PC.
- USB amp connects to your game and gives you fingertip controls to mix levels of game and chat audio plus integration of music or calls from your mobile device.
- Three EQ settings let you choose between *Pure* for improved voice clarity, *Intensify* for bass and mid-range boost, and *Seismic* for more bass without any rumbling or distortion.
- Forget-it's-on comfort lets you play for hours, watch movies, or relax with music wearing lightweight, pillow-soft earcups and cushioned headband.
- Headset also connects to your mobile devices with a single 3.5mm connection so you can play anywhere.
