

SupraPlus®

The gold standard in performance and comfort – even for the most phone-intensive applications. The SupraPlus headset family has been trusted by enterprises world wide for years, and continues to set the standards for durable, lightweight corded headsets for contact center and office professionals.

SupraPlus Key Features

- **Business-critical reliability and comfort.** SupraPlus meets or exceeds all expectations set by our existing world-class professional headsets while delivering superior all-day, every-day comfort and reliability.
- **Wideband capability.** Wideband receivers improve speech clarity for life-like fidelity which helps to decrease listening errors, repeats and listener fatigue. Fully compatible with standard band environments.
- **Ultra noise-canceling (UNC) microphones.** Comes with an extended boom for industry-leading noise-canceling and echo performance.
- **Stylish, comfortable, lightweight design.** The light flexible cable, comfortable T-pad headband, and bendable click-stop microphone boom, work to enhance user comfort. Single-cable design for binaural models.
- **Quick call feature.** Headband twists out of the way for convenient quick call pick up.
- **Monaural or binaural styles.** Monaural lets you hear the conversation and what's going on around you. Binaural cuts out distracting background noises.
- **Call quality at the next level.** Adding a Plantronics amplifier featuring Clearline™ or AudioIQ® technology protects from loud noises, reduces echoes and background noise, and equalizes call volume.
- **Plantronics compatibility.** With Quick Disconnect™ SupraPlus works with all Plantronics audio processors and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.
- **Warranty: Two years** for unsurpassed durability.

(Also available with Voice Tube)

SupraPlus headsets require a Plantronics audio processor or direct connect cable to connect to phone, or a USB audio processor to connect to PC.

Vista® M22 Audio Processor

The Vista M22 audio processor delivers precise levels of listening comfort, sophisticated hearing protection, and superior audio performance. The Vista M22 includes Clearline™ audio to improve call quality in any environment, especially wideband VoIP.

VistaPlus™ AP15 Audio Processor

Delivering clearer audio through AudioIQ's DSP-powered multiband compression, noise and echo reduction algorithms, the VistaPlus AP15 is specifically designed for contact centers with high background noise levels.
