

VOYAGER

PLANTRONICS VOYAGER® 835 BLUETOOTH HEADSET

Enhanced Noise Canceling

In the car, on the street or at the airport, be heard above the noise with the Plantronics Voyager 835 Bluetooth headset. Dual-mic AudioIQ® noise canceling technology provides clear sound by separating and enhancing your voice to minimize distracting background sounds.

A comfortable, contoured eartip channels sound directly into your ear, so you can focus on what's important—your conversation.

Plantronics QuickPair™ technology lets you easily pair your headset with your Bluetooth® phone and multipoint technology lets you stay connected with two Bluetooth phones—like a PDA and personal phone—all from one lightweight headset.

- Dual-mic AudioIQ noise canceling for clear calls
- Windsmart™ technology reduces wind noise
- In-car charger keeps you connected on the go¹
- One headset for use with two Bluetooth phones
- Slim, lightweight design for all-day comfort
- Simple pairing with Plantronics QuickPair technology
