Pair USB adapter again

Typically, your USB adapter is pre-paired to your headset. In the event that your adapter is disconnected or bought separately, you will need to pair the adapter to your headset.

- 1 Insert the high-fidelity Bluetooth USB adapter into your laptop or computer and wait for your computer to recognise it.
- 2 Put your headset in pair mode.
- 3 Put your Bluetooth USB adapter into pair mode by pressing and holding the recessed pair button with a pen or paperclip until the Bluetooth USB adapter flashes red and blue.

NOTE Adapter design may vary

Pairing is successful when you hear "pairing successful" and "PC connected" and the Bluetooth USB adapter LED is solid blue.

Configure USB adapter

Your high-fidelity Bluetooth USB adapter comes ready to take calls. If you want to listen to music, you will need to configure your Bluetooth USB adapter.

Windows

- 1 To configure your Bluetooth USB adapter to play music, go to **Start menu > Control Panel > Sound > Playback tab**. Select **Plantronics BT600**, set it as the Default Device and click OK.
- 2 To pause music when you place or receive calls, go to **Start menu > Control Panel > Sound > Communications tab** and select the desired parameter.

Mac

- 1 To configure the Bluetooth USB adapter, go to **Apple menu > System Preferences > Sound**. On both the Input and Output tabs, select **Plantronics BT600**.
