PACKAGE CONTENTS & FEATURES

- Indicator light
- Call control button
- Microphone
- Adjustable ear loop
- Ear tip
- Charging jack
- AC power adapter
- Volume control

CHARGING & POWERING

CHARGING
Before using, you must first charge your headset.

- 20 minutes = minimum charge
- 2 hours = full charge

Indicator light is solid red when battery is charging.

NOTE For the best user experience, keep your headset fully charged.

CAUTION Do not use headset while charging and do not connect the charger while the headset is in use.

POWERING
Press and hold the call control button for 2 seconds to power on.

Press and hold the call control button for 3 seconds to power off.
PAIRING

This headset comes with QuickPair™ technology so pairing with your Bluetooth phone is even easier. Follow the instructions below to pair your phone with your headset for the first time.

QUICKPAIR FEATURE INSTRUCTIONS

Step One: Prepare Phone—Turn on Bluetooth
For most phones, go to Settings/Tools menu and select Bluetooth or Connectivity and select “On.” (Or see the user guide for your phone.)

Step Two: Prepare Headset—Pairing Mode
Begin with headset turned off. Turn headset on (hold call control button for 2 seconds until the light flashes blue) and it will automatically go into pairing mode, flashing red and blue.

Step Three: Pairing—Add Headset to Phone
For most phones, go to Settings/Tools > Bluetooth > Search or Add a Device, then Select “220Plantronics.” For passkey enter 0000. Headset will flash blue when paired successfully. It is now powered on and ready to use.

NOTE: Normally you only need to pair the headset and handset once. If headset has been previously paired with another device, follow pairing instructions on the next page.
If headset has previously been paired with another device, please follow these instructions for pairing a second time. Ensure that the headset is fully charged. For instructions on set-up and pairing with other Bluetooth devices, please consult your Bluetooth device user guide.

Begin with headset turned off.

1. Press and hold down the call control button for 8 seconds until the headset status indicator begins to flash blue then red. The headset is now in pairing mode for the next 120 seconds.

2. While the headset is flashing, use the phone menu to search for Bluetooth devices and select “220Plantronics.”

3. When prompted for a passkey, enter 0000. Headset will flash blue when paired successfully.

**NOTE:** The headset can pair to multiple Bluetooth devices, but will only connect to one device at a time. The headset will automatically connect to the last device to which it was connected.
ADJUSTING FIT

1. Lift ear loop.

2. Swivel ear loop to the right or left for right or left ear wearing.

3. Place ear loop behind ear.

4. Pivot headset to place speaker into ear.

5. Position speaker and align microphone with mouth.
USING YOUR HEADSET

ANSWERING/ENDING/MAKING CALLS

For best performance, position your mobile phone on the same side of your body as the headset.

To answer or end a call, briefly press the call control button.

To make a call, enter number on your phone, press send, and the call is automatically transferred to headset; no need to press call control button.

NOTE: When answering a call, wait until you hear a ring from the headset itself (not the ring from your phone), before pressing the call control button.

ADJUSTING THE VOLUME

Briefly push up or down on the volume button for incremental volume steps. You will hear two tones (high tone followed by low tone) at the volume limit.

⚠️ WARNING Do not use headphones/headsets at high volumes for an extended period of time. Doing so can cause hearing loss. Always listen at moderate levels. See www.plantronics.com/healthandsafety for more information on headsets and hearing.
USING YOUR HEADSET

ADDITIONAL FEATURES

Redialling Last Number
To activate last number redial, double press the call control button. You will hear a high tone after each key press.

Using Voice Dialling
With the headset on, press and hold the call control button for 2 seconds to activate the voice dialling.

NOTE To use voice activated dialing, the voice dialling feature must be enabled on your phone. See your Bluetooth phone manual for instructions.

Rejecting a Call
When receiving an incoming call, press the call control button for 2 seconds to reject the call.

Switching a Call From Phone to Headset
To switch an active call from your phone to your headset, press the call control button for 3 seconds.

Switching a Call From Headset to Phone
To switch an active call from your headset to your phone, press the
