# Teaching in the classroom, remote, or in person.

Whether you’re a professor shooting a video for distance learning, or a grade school educator teaching language arts, you’re passionate about what you teach. So make sure you get your point across—whether you’re having a faculty meeting over video conference or conducting office hours via PC and softphone, or mobile device.

### In the office, from administration to IT.

The performance and durability of our headsets can help administrators achieve their goals—and free their teams to work untethered and hands free. And IT will appreciate that Plantronics makes it easy to integrate headsets into their telecom environment; our devices interface with virtually any phone system or desk set and deploy seamlessly into a Unified Communications platform.

### Plantronics Manager Pro

**Effortless management for headsets**

As an IT manager you’re responsible for hundreds, maybe thousands, of professional headsets. It is a big task to monitor, manage and maintain them—until now. Plantronics Manager Pro provides a cloud-based, near real-time view of headsets being used throughout your organization and manage them with scheduled firmware updates, policy control and usage information.
On campus, from the dorm room to the classroom.

Whether practicing French, at a listening lab, or talking with friends, students want great audio in a stylish, hands-free package. Bookstore managers will find that Plantronics is in demand, working seamlessly with PCs, laptops, tablets, smartphones, iPods, and gaming platforms.

### FOR INSTRUCTORS, ADMINISTRATORS, AND STUDENTS:

<table>
