

How to setup Plantronics headset with Dragon

Audio Setup Wizard - Step 1 of 4

The following sound systems are available on your computer. Choose one of these for use with speech recognition.

- SigmaTel C-Major Audio CS50/CS60-USB Headset

To have the Audio Setup Wizard automatically choose the most likely sound system, click Default.

If your computer does not actually have one of these sound systems, click Help.

Select headset model, then default, click next to continue, then follow rest of steps
